

Bringing ***vision***  
to veterinary care.

## **Re-engineered** for you.

### **Increased max depth.**

Increased maximum scanning depth across presets, including 30cm on 'deep' presets.

### **Improved shallow and mid-depth resolution.**

Get a clearer picture for more easily interpretable scans.

### **Wider field of view.**

A broad field of view enables visualization of full organs on one plane.

### **Do more with less.**

Maneuver around smaller animals and areas with a 15% smaller probe head and 10% shorter probe.

## Sharper imaging, **Faster answers.**

Expedite care timelines and help improve outcomes with more actionable insights in your clinic.

### **Abdominal small animal.**

Optimized abdominal image quality for confident kidney-length measurement.

### **Bladder assessment and treatment.**

Measure bladder wall thickness and identify urinary stones and masses with the optimized bladder preset.

### **MSK equine.**

Rule out cortical deviations with sharper bone surface imaging.

Precise guidance.  
***Confident procedures.***

Needle Viz™ technology: on-screen, in-plane needle visualization for precise aspirates and injections.

Ultrasound—now on your compatible  
***Android or iOS device.***

Download the Butterfly app, plug in your device, and select between 12 optimized presets with our intuitive touch-based interface.

***Built to last*** your toughest shifts.

Ready when you need it. iQ+ is proven by military-grade<sup>1</sup> testing to withstand being dropped from waist-length. Water and dust resistant,<sup>2</sup> and equipped with a replaceable stomp- and compression tested cable.

## **Connected** care.

- Easily share studies with your clients and colleagues via text or email.
- Automatically integrate scans into any existing system with a secure DICOM connection.
- Use TeleGuidance™ to give or receive ultrasound guidance remotely.

## Start your scanning **education** on day one.

Begin your ultrasound education journey with expert-taught tutorials, right in the Butterfly app.

When your patients don't speak,  
***an image is worth a thousand words.***
