

One probe, whole-body imaging

**Patient assessment,
transformed.**

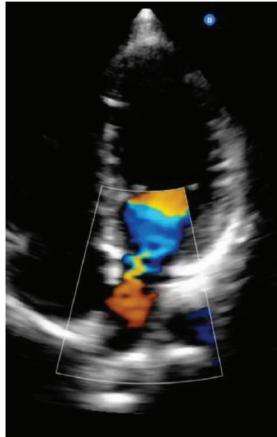

**Powered by Ultrasound-on-chip technology.
Access three waveforms with one durable, handheld device**

Sharper, faster imaging.

Designed to make ultrasound easy to use. Simply connect the probe to your compatible iOS or Android device, select from 20+ presets in seconds with the swipe of a finger — and start scanning.

Cardiac

Monitor vascular abnormalities, perform TTE, and automatically calculate ejection fraction.

Cardiac

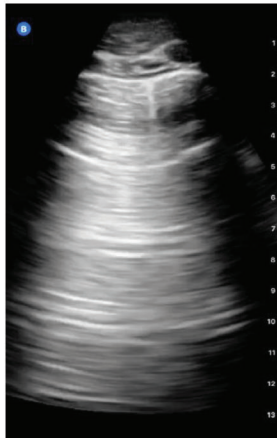

MSK

MSK

Assess tears and fractures and support return-to-play decisions, in the clinic or on the sidelines.

Lung

Evaluate respiratory distress and reliably detect the presence of B-lines.

Lung

Bladder

Bladder

Get automated bladder volume calculations, along with a 3D rendering, in moments.

Clinical presents: Abdomen, Abdomen Deep, Aorta & Gallbladder, Bladder, Cardiac, Cardiac Deep, Coherence Imaging, FAST, Lung, Lung Tissue, MSK-Soft Tissue, Musculoskeletal, Nerve, OB 1/GYN, OB 2/3, Ophthalmic, Pediatric Abdomen, Pediatric Cardiac, Pediatric Lung, Small Organ, Vascular: Access, Vascular: Carotid, Vascular: Deep Vein, Vascular: Face

Advanced imaging tools: Auto Bladder Volume Calculation, Auto Ejection Fraction, Educational View Guidance, Biplane Imaging, Needle Wiz, Midline marker tool, OB Calculations, 5 Labelling Protocols, Pelvic Volume Calculation

All comparative claims are made relative to first-generation iQ product.

Connected care is stronger care.

Go from scanning to documenting in moments. Butterfly iQ+ is paired with our software's storage and collaboration features, to help you get the most out of every image.

Give or receive ultrasound guidance, wherever you are.

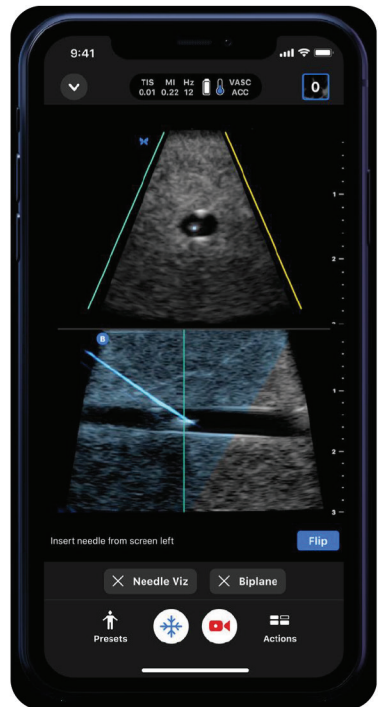

Video call with collaborators while scanning, view images in real-time and remotely adjust preset, mode, gain and depth.

Store every image, safely and securely.

The cloud service offers unlimited, secure image storage. Team image archives enable real-time commenting and seamless study documentation via customizable worksheets.

Guide procedures with confidence.

Precise guidance for difficult line placements. Visualize the long and short axis simultaneously with Biplane Imaging™ and highlight needles onscreen with NeedleViz™ technology.

One probe.

Five imaging modes, with distinct applications across specialties.

B-mode

M-mode

Color Doppler

Power Doppler

Pulsed-Wave Doppler

Handheld imaging, easier than ever.

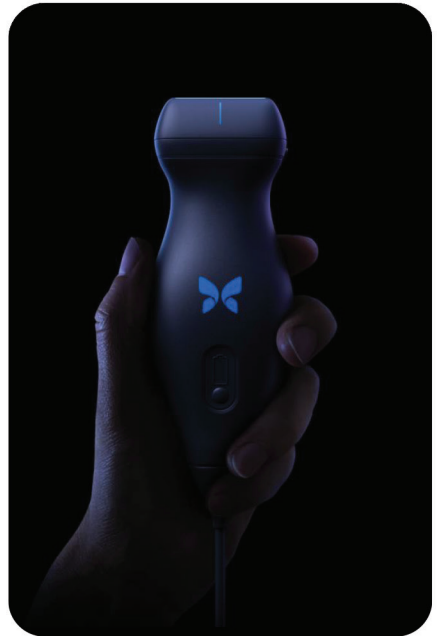

Robust educational offerings that meet you where you are in your ultrasound journey.

Academy

A curated library of courses, guiding you from your first time holding a probe through to ultrasound competence.*

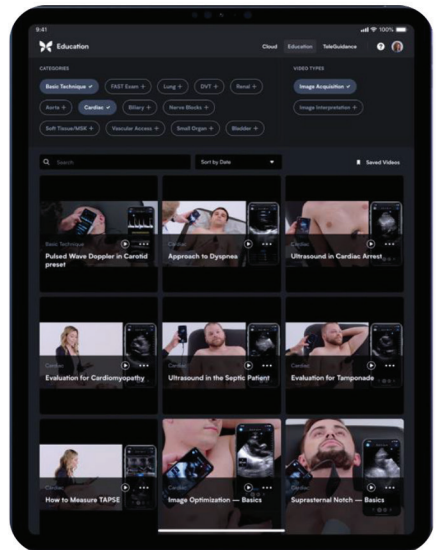

Find confidence in moments.

Access quick, expert-led video tutorials covering dozens of applications, all without leaving the app.*

Built to last your toughest shifts.

Ready when you need it. iQ+ is proven by military-grade¹ testing to withstand being dropped from waist-length. Water and dust resistant,² and equipped with a replaceable stomp- and compression tested cable.
